

# CHAPTER 6. TABLE OF USES

## SECTION 6.1. PRINCIPAL USE TABLE

The use table below lists the range of allowable principal uses, the zoning districts where they are permitted, and the type of application approval necessary from the County for the use to be established. The following application types are listed in the table:

### A. PERMITTED USES

A “P” in a cell of the table indicates that the specific use type is permitted in the corresponding zoning district, subject to any referenced use standards identified in the table and issuance of a zoning permit (see Chapter 4) by the Administrator.

### B. SPECIAL USES

An “S” in a cell of the table indicates that the specific use type may only be permitted in the corresponding zoning district following approval of a special use permit by the Board of Commissioners (see Chapter 12). Special uses are subject to any referenced use standards identified in the table and may be subject to additional conditions deemed necessary by the Board of Commissioners.

### C. CONDITIONAL ZONING

A “Z” in a cell of the table indicates that the specific use type may only be permitted within a conditional zoning district that is parallel to the listed underlying zoning district (see Chapter 11). The conditional zoning district designation must be in place before the use type may be established.

### D. PLANNED DEVELOPMENT DISTRICT

1. An “A” in a cell of the principal use table indicates that the specific use type is permitted in a planned development district, provided the specific use type is included in the list of potential use types in the master plan or terms and conditions document.
2. If a use type is listed as prohibited in a planned development district it may not be included in a master plan or terms and conditions document.

### E. USE NOT PERMITTED

An “•” symbol in a cell of the summary use table indicates that the specific use type is not permitted in the corresponding zoning district.

### F. BUILDING CODE CLASSIFICATION

1. The “Bldg. Code Group” column in the use table is intended for reference purposes only. Classifications will be verified by the Building Inspector and should follow the regulations of the applicable “Use & Occupancy Classification” in accordance with NC State Building Code.
2. Changes of use from one building code classification to a different building code classification within an existing building require approval of sealed plans by the Building Inspector.
3. The different kinds of building code classifications are set out in the table below.

BUILDING CODE CLASSIFICATIONS			
ABBREVIATION	CLASSIFICATION TYPE	ABBREVIATION	CLASSIFICATION TYPE
A	Assembly	M	Mercantile
B	Business	R	Residential
E	Education	S	Storage

## G. UNLISTED USES

1. In the event that a proposed principal use type is not listed in principal use table and provided such land use is not listed as prohibited use in this Chapter, the Administrator shall determine whether a materially similar land use exists in this Ordinance.
2. The Zoning Administrator shall determine whether or not an unlisted use is similar to an existing use type based on the standards in Section 4.3.C of this Ordinance.
3. Nothing shall limit the Administrator from seeking input from County staff, the Planning Board, or Board of Commissioners in making a determination of how to categorize an unlisted use.
4. Should the Administrator determine that a materially similar land use does exist, the regulations governing that land use shall apply to the unlisted use type and the Administrator's determination shall be recorded in writing.
5. In cases where a proposed unlisted use type is not found to be similar to an existing use type, the Administrator may, but shall not be required to, initiate a text amendment application to revise the text of this Ordinance to add the use type in accordance with (see Chapter 10).

## H. CHANGE OF USE

1. Several of the provisions in this Ordinance are applied at the time of a change in use. For the purposes of this Ordinance, each of the following shall constitute a "change in use:"
  - i. When an existing principal use is replaced by a new principal use that is of a different use classification, use category, or use type designation;
  - ii. When an existing principal use that is conducted entirely indoors becomes conducted entirely outdoors, or vice versa;
  - iii. When an existing use type that is a nonconforming use changes to a different use type that is also nonconforming, regardless of whether the newer nonconforming use is more intense than the prior nonconforming use;
  - iv. Any change in an existing use or development site that triggers the application of a differing set of building code requirements, such as the switch from residential requirements to non-residential or combined use requirements;
  - v. When an existing principal use intensifies or expands (with or without a shift in the use type) in a manner that increases the average daily trips associated with the use by 100 percent or more; and
  - vi. If a combined or multiple principal use is changed in ways where the mixture of use types changes or where the relative proportion of floor area devoted to one of the existing use types is modified to the extent that the total minimum off-street parking standards for the entire development are changed.
2. Conversion from one use type to the same use type under the same or a different owner is not a change in use. Additions or expansions of an existing use may require the need for compliance with development or design standards in this Ordinance.
3. Changes of use type within a planned development district do not constitute a change in use provided the new use types is identified in the planned development terms and conditions document. The addition of a new or unlisted use types within a planned development shall require an amendment to the planned development district.
4. Addition or conversion of secondary uses or the operation of a temporary use does not constitute a change in principal use.

## CHAPTER 6. TABLE OF USES

### SECTION 6.1. PRINCIPAL USE TABLE

#### I. COMBINATION OR MULTIPLE PRINCIPAL USES

Developments with combination or multiple principal uses, such as shopping centers, shall:

1. Incorporate only those use types allowed in the applicable zoning district;
2. Comply with all the use standards that apply to each use type in the development; and
3. Comply with the required method of establishment for the use type identified in the principal use table.

#### J. MAJOR SUBDIVISION

The principal use table lists residential and non-residential major subdivisions and the zoning districts where these kinds of subdivisions are permitted in accordance with the applicable standards in Chapter 19. Minor, expedited, and family subdivisions are not required to obtain special use permit approval and are not prohibited in any zoning districts.

**C. GENERAL STANDARDS FOR ALL SECONDARY USES AND STRUCTURES****1. PERMITTED ACCESSORY USES AND STRUCTURES**

## CHAPTER 6. TABLE OF USES

### SECTION 6.2. ACCESSORY USES AND STRUCTURES

#### E. ACCESSORY USE TABLE

1. If a specific accessory use is allowed by-right, the cell underneath the zoning district is marked with a "P".
2. If a specific accessory use is allowed subject to a special use permit, the cell underneath the zoning district is marked with a "S".
3. A "Z" in a cell of the table indicates that the specific accessory use may only be permitted within a conditional zoning district that is parallel to the listed underlying zoning district (see Chapter 11).
