Dear Physician:

The above named patient has requested to utilize the Fitness Room and/or group exercise classes at the Moore County Senior Enrichment Center. In order to complete the membership process, documentation of a medical screening is required. Our staff is certified in CPR, AED & First Aid and always on site; however, at times your patient may exercise unsupervised in our designated exercise areas.

When there is at least 1 risk factor for Coronary Heart Disease (including age) this necessitates screening for Coronary Heart Disease, Pulmonary or Metabolic Disease before beginning/increasing their physical activity/exercise. Please indicate below that this patient has been screened and at this moment whether they may or may not participate. Please also note if there are any recommendations for limitation of exercise for this patient.

An orientation to the fitness program and equipment is provided. The American College of Sports Medicine Exercise Guidelines are presented and discussed. Individual target heart rate is included and monitored during a ten minute cardiovascular warm-up. A Listing of cardio-respiratory and strength training equipment is listed on the reverse side of this letter for your review. Group exercises classes are offered from beginner to advanced fitness levels.

Thank you for your time and assistance.

Please feel free to call me if you have any questions at (910) 947-4184.

Sincerely,

Christopher A. Pevia
Fitness Coordinator
