

ReadyForms/Tyler Forms Output Management Solution Printer Requirements

Check Printers

The following technical specifications must be met for check printing with ReadyForms/Tyler Forms.

- HP Brand Black/White Laser Jet Networked Printer with Static IP Address
- High Speed USB Port
- HP PCL 5e/6 Personality or Language Installed
- Automatic Duplexing Included and Enabled
- Minimum Memory - 1024MB
- Minimum of 80 Internal TrueType Scalable Fonts (80 HP Font Set)
- Minimum of 2 Full Input Trays (Manual Feed Tray not usable)
- MICR toner cartridge
- Printers must have the latest firmware updates installed

IMPORTANT NOTE: Printers that have been modified by a third party to include security features like an embedded signature system and MICR fonts will interfere with the ReadyForms/Tyler Forms security features. They cannot be used to print checks with ReadyForms/Tyler Forms.

Other Form Printers

The following technical specifications must be met for all other form (not check) printing with the ReadyForms/Tyler Forms.

- Network Laser Jet Printer with Static IP Address
- PCL 5e/6 Personality or Language Installed
- Automatic Duplexing Included and Enabled*
- Minimum Memory - 1024MB
- Minimum of 80 Internal TrueType Scalable Fonts
- Minimum of 2 Full Input Trays (Manual Feed Tray not usable)
- Accommodates Letter and Legal-Size Paper Stock
- Printers must have the latest firmware updates installed

**Please note that for some non-check form designs you will need to have a duplexing capability.*

PLEASE NOTE:

Our solution is designed for and guaranteed to work with HP black and white laser jet printers meeting the minimum requirements. For non-check forms we will make every effort to print to other networked printers that meet the technical requirements outlined above. While we routinely and successfully print other forms to many brands of laser printers, if we are unable to print to a printer on your site, you will be required to provide an alternate printer.

Scanner Compatibility Reference Chart

Tyler has certified the following scanners to be used in production environments with Tyler Content Manager™. If you want to be 100% confident that your scanner is compatible with TCM, we suggest you purchase a scanner from this list. *While we cannot guarantee other scanners' compatibility, most TWAIN compatible scanners work with TCM.*

Scanners

Canon P-215II

15 ppm, 20 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-C225

25 ppm, 30 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-C230

30 ppm/60 ipm, 60 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-C240

45 ppm, 60 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-M260

60 ppm/120 ipm, 80 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-M160II

60 ppm, 60 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-G2110

110 ppm/220 ipm, 500 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-G1100

100 ppm, 500 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-G2140

140 ppm/280 ipm, 500 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-G2090

90 ppm, 300 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Canon DR-G1130

130 ppm, 500 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Fujitsu 7030

27 ppm, 50 page ADF, Duplex, TWAIN, B&W/24 Bit Color

Scanners (Cont.)

Fujitsu 7160

60 ppm, 80 page ADF, Duplex,
TWAIN, B&W/24 Bit Color

Fujitsu 7260

60 ppm, 80 page ADF, Duplex,
TWAIN, B&W/24 Bit Color

Fujitsu 7180

80 ppm, 80 page ADF, Duplex,
TWAIN, B&W/24 Bit Color

Fujitsu 7280

80 ppm, 80 page ADF, Duplex,
TWAIN, B&W/24 Bit Color
