Two New COVID-19 Deaths Reported for Moore, Both Linked to Long-Term Care

On September 24th, the Moore County Health Department was notified of the deaths of two Moore County residents whose deaths were determined to be related to COVID-19 infection. The ages, races, ethnicities, and dates of death for the individuals are as follows:

- An African American, Non-Hispanic female over the age of 75 who passed away on September 18th.
- A White, Non-Hispanic female over the age of 75 who passed away on September 20th.

The individual who passed away on September 18th was a resident of Elmcroft. The individual who passed away on September 20th was a resident of Peak Resources Pinelake.

A total of twenty-nine deaths have now been attributed to COVID-19 thus far in Moore County. Moore County's total for COVID-19 deaths linked to outbreaks in long-term care facilities now stands at eighteen. Moore County's eleven other COVID-19 deaths have been linked to community spread.

COVID-19 death totals for long-term care facilities in Moore are as follows:

- Pinehurst Healthcare and Rehabilitation Center - 6 deaths
- Seven Lakes Assisted Living & Memory Care - 4 deaths
- Accordius Health at Aberdeen – 3 deaths
- Fox Hollow - 2 deaths
- Quail Haven Village - 1 death
- Elmcroft - 1 death
- Peak Resources Pinelake - 1 death

COVID-19 deaths include people who have had a positive laboratory test for COVID-19, who died without fully recovering from COVID-19 and who had no alternative cause of death identified. Deaths are reported by hospitals and clinicians directly to local and state health departments.

In total, there have been 1,601 confirmed COVID-19 cases in Moore County to date. To protect privacy, no further information about the individuals who have tested positive will be shared by the Health Department. Moore County Health Department staff are monitoring individuals who have tested positive and will follow up with anyone who is identified as a close contact. The U.S. Centers for Disease Control and Prevention (CDC) defines "close contact" as being within six feet for 10 minutes or more.

The Moore County Health Department continues to encourage everyone to **"Know Their W's"** and continue to exercise caution when out in public: **Wear** a cloth face covering if you will be around other people, **Wait** six feet apart and avoid close contact, and **Wash** your hands often for at least 20 seconds or use hand sanitizer.

In addition to these measures, everyone is urged to continue to adhere to the following guidelines:
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home, especially if you are sick.
- Cover your cough or sneeze with your sleeve/elbow or with a tissue and be sure to throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

NCDHHS has a **"Check My Symptoms"** tool that can help determine if you're recommended to be tested for COVID-19. That tool can be found at https://ncdhhs-covid19-dtra.powerappsportals.us/. If you are a person who needs testing, you can use the **"Test Site Finder"** application to help locate a testing site near you. That application can be found at https://covid19.ncdhhs.gov/about-covid-19/testing/find-my-testing-place.

NCDHHS also recently launched a COVID-19 Exposure Notification app called 'SlowCOVIDNC'. The app will help North Carolinians slow the spread of the virus by alerting them when they may have been exposed to someone who has tested positive for COVID-19.

To learn more about **SlowCOVIDNC** and to download the app, visit https://www.covid19.ncdhhs.gov/slowcovidnc. The app is completely anonymous and does not collect, store or share personal information or location data.
