

**MOORE COUNTY PLANNING BOARD  
SPECIAL MEETING  
THURSDAY, APRIL 16, 2015, 6:00 PM  
MOORE COUNTY HISTORIC COURTHOUSE – 2<sup>nd</sup> Floor**

**CALL TO ORDER – 6 PM**

**INVOCATION – (Member Volunteer)**

**MISSION STATEMENT – (Member Volunteer)**

**I. PUBLIC COMMENT PERIOD (*Procedures are attached*)**

**Please sign up on the Public Comment Sign In sheet near the door**

**II. APPROVAL OF CONSENT AGENDA**

All items listed below are considered routine and will be enacted by one motion. No separate discussion will be held except by a member of the Planning Board:

- A. Approval of Meeting Agenda
- B. Approval of Minutes of March 5, 2015
- C. Consideration of Abstentions

**III. PUBLIC HEARING**

**Planning Board Chairman opens Public Hearing #1**

1. The applicant, Kenneth Culler, is seeking a Conditional Use Permit for the use of an Automobile Sales Business located in Seven Lakes on two adjacent parcels (ParID 00017369 & 00014378) with a MacDougall Drive address owned by Bruce & Shirley Donaldson as identified in Moore County tax records. (*Theresa Thompson presenting*)

**Planning Board Chairman calls proponents and opponents forward for Public Hearing #1 (one at a time)**

**Planning Board Chairman opens the floor for discussion and a motion regarding Public Hearing #1**

**Planning Board Chairman closes Public Hearing #1**

**Planning Board Chairman opens Public Hearing #2**

2. The applicant, Pristine Sun Fund 12, LLC, is seeking a Conditional Use Permit to construct a commercial Solar Collector Facility on Jason Road in the Sheffield Township on a parcel (ParID 00009291) owned by Cynthia Dabestani as identified in the Moore County tax records. (*Theresa Thompson presenting*)

**Planning Board Chairman calls proponents and opponents forward for Public Hearing#2 (one at a time)**

**Planning Board Chairman opens the floor for discussion and a motion regarding Public Hearing #2**

**Planning Board Chairman closes Public Hearing #2**

**Planning Board Chairman opens Public Hearing #3**

3. The applicant, Vass Solar 2 LLC, is seeking a Conditional Use Permit to construct a commercial Solar Collector Facility on Morrison Bridge Road in the Little River Township on a parcel (ParID 00042822) owned by Lewis and Edith Foster as identified in the Moore County tax records.  
(Theresa Thompson presenting)

**Planning Board Chairman calls proponents and opponents forward for Public Hearing#3 (one at a time)**

**Planning Board Chairman opens the floor for discussion and a motion regarding Public Hearing #3**

**Planning Board Chairman closes Public Hearing #3**

**Planning Board Chairman opens Public Hearing #4**

4. The applicant, Lobelia Solar, LLC, is seeking a Conditional Use Permit to construct a commercial Solar Collector Facility off of Lobelia Road in the Little River Township on a parcel (ParID 00044233) owned by Clinton and Elizabeth Williams as identified in the Moore County tax records.  
(Theresa Thompson presenting)

**Planning Board Chairman calls proponents and opponents forward for Public Hearing #4 (one at a time)**

**Planning Board Chairman opens the floor for discussion and a motion regarding Public Hearing #4**

**Planning Board Chairman closes Public Hearing #4**

**IV. OTHER BOARD MATTERS**

**V. PLANNING DEPARTMENT REPORTS**

**VI. BOARD COMMENT PERIOD**

**VII. UPCOMING EVENTS**

- Tuesday, April 7, 2015 5:30 PM Board of Commissioners Meeting to be held at the Historic Courthouse in Carthage.
- Tuesday, April 21, 2015 5:30 PM Board of Commissioners Meeting to be held at the Historic Courthouse in Carthage.
- Thursday, May 7, 2015 6:00 PM Planning Board Meeting to be held at the Historic Courthouse in Carthage

**VIII. ADJOURNMENT**

*Special accommodations for individuals with disabilities or impairments will be made upon request to the extent that reasonable notice is give to the County.*

*Please see attached procedures for the Public Comment Period and public commend during Public Hearings*

**PUBLIC COMMENT PROCEDURES  
MOORE COUNTY PLANNING BOARD**

*The Moore County Planning Board is committed to allowing members of the public an opportunity to offer comments and suggestions for the efficient and effective administration of government. In addition to public hearings, a special time is set aside for the purpose of receiving such comments and suggestions. All comments and suggestions addressed to the Board during the Public Comment Period shall be subject to the following procedures:*

- 1. The Public Comment period will be held at the beginning of the Board meeting. The comment period will be limited to a maximum of thirty minutes*
- 1. Persons who wish to address the Board during the Public Comment Period will register on a sign-up sheet available on the table outside the entrance door to the Meeting Room indicating contact information and topic. Sign-up sheets will be available beginning 30 minutes before the start of the meeting. No one will be allowed to have his/her name placed on the list by telephone request to County Staff.*
- 2. Each person signed up to speak will have three (3) minutes to make his/her remarks. Each person signed up to speak will only be entitled to the time allotted to each speaker and one additional time period which may be yielded to him/her by another individual who has also signed up to speak on a particular topic.*
- 1. Speakers will be acknowledged by the Board Chairperson in the order in which their names appear on the sign up sheet. Speakers will address the Board from the lectern at the front of the room and begin their remarks by stating their name and address.*
- 2. Public comment is not intended to require the Board to answer any impromptu questions. Speakers will address all comments to the Board as a whole and not one individual member. Discussions between speakers and members of the audience will not be allowed.*
- 3. Speakers will be courteous in their language and presentation. Matters or comments which are harmful, discriminatory or embarrassing to any citizens, official or employee of Moore County shall not be allowed. Speaker must be respectful and courteous in their remarks and must refrain from personal attacks and the use of profanity.*
- 4. Only one speaker will be acknowledged at a time. If the time period runs out before all persons who have signed up get to speak, those names will be carried over to the next Public Comment Period.*
- 5. Any applause will be held until the end of the Public Comment Period.*
- 6. Speakers who have prepared written remarks or supporting documents are encouraged to leave a copy of such remarks and documents with the Chairperson.*
- 7. Information sheets outlining the process for the public's participation in Board meetings will also be available in the rear of the Meeting Room.*
- 8. Action on items brought up during the Public Comment Period will be at the discretion of the Board.*

*Adopted on the 4<sup>th</sup> day of February, 2010 by a 8 to 1 vote of the Moore County Planning Board*

**MOORE COUNTY PLANNING BOARD  
PUBLIC HEARINGS PROCEDURES**

*The Moore County Planning Board serves the public as well as the Board of Commissioners. During each public hearing a special time has been set aside for the purpose of receiving comments and suggestions. To insure that comments and suggestions are productive and not unnecessarily long, procedural rules for conducting public hearings are necessary. The following procedural rules will be utilized during public hearings of the Moore County Planning Board:*

- 1. Anyone who would like to address the Board during a public hearing should register on the appropriate sign-up sheet indicating their name and address. Sign-up sheets will be available on the table outside the entrance door to the Meeting Room 30 minutes before the start of the meeting. Information sheets outlining the process for the public's participation in Board meetings and public hearings will also be available. No one will be allowed to have his/her name placed on the list by telephone request to County Staff.*
- 2. Each speaker will be called by the Chairman to the lectern, will state their name and address clearly into the record before providing their comments.*
- 3. Speakers will address all comments to the Board as a whole and not to any one individual member. Speakers will be respectful, courteous, refrain from personal attacks and the use of profanity.*
- 4. Any applause will be held until the end of the public hearing.*
- 5. Speakers who have prepared written remarks or supporting documents are encouraged to leave a copy of such remarks and documents with the Secretary.*
- 6. Action on items brought up during the public hearing will be at the discretion of the Board.*

*Adopted on the 5<sup>th</sup> day of May, 2011 by a 9 to 0 vote of the Moore County Planning Board*

**MINUTES**  
**MOORE COUNTY PLANNING BOARD**  
**THURSDAY FEBRUARY 5, 2015, 6:00 PM**  
**MOORE COUNTY HISTORIC COURTHOUSE – 2<sup>nd</sup> FLOOR**

**Board Members Present:** Buck Mims (Chair), Aaron McNeill (Vice Chairman), Molly Boggis, Eli Schilling, Scott McLeod, Rich Smith, Robert Hayter, Gene Horne, Eddie Nobles

**Board Members Absent:** NONE

**Staff Present:** Debra Ensminger, Planning Director  
Theresa Thompson, Planner  
Tim Emmert, Planning Supervisor  
Brenda White, Deputy County Attorney  
Lydia Cleveland, Administrative Officer II

**Press Representatives:** Greg Hankins

**CALL TO ORDER**

Planning Board Chairman Buck Mims called the meeting to order.

**INVOCATION**

Vice Chairman Aaron McNeill offered the invocation.

**MISSION STATEMENT**

Board Member Rich Smith read the Moore County Mission Statement.

**PUBLIC COMMENT PERIOD**

There was no public comment.

**APPROVAL OF THE CONSENT AGENDA**

- A. Approval of Meeting Agenda
- B. Approval of Minutes of February 5, 2015
- C. Consideration of Abstentions

Board Member Robert Hayter motioned to approve the Consent Agenda and the motion was seconded by Board Member Eli Schilling. The motion passed unanimously (8-0), Eddie Nobles was absent at the time of the vote.

## **PUBLIC HEARING(s)**

Chairman Mims opened public hearing #1

*The applicant, Flint Hill Solar, LLC is seeking a Conditional Use Permit to construct a commercial Solar Collector Facility on NC Hwy 24-27 in the Carthage Township on a parcel (ParID 00004653) owned by McDowell Timber Company as identified in the Moore County tax records. The parcel is approximately 36.55 acres.*

Planner, Theresa Thompson presented background information as well as the purpose of the request submitted by the applicant. Ms. Thompson presented the recommended motion regarding this case and asked if there were any questions.

Board Member Molly Boggis asked if there are any wetlands on the property. Ms. Thompson explained that preliminary data says no but the applicant will be completing a delineation of the property. Board Member Boggis also asked if the property abutting the proposed location is residential. Ms. Thompson stated that the surrounding lots are zoned residential and there are four dwellings. Board Member Boggis asked for confirmation that the minimum set back of 50 feet has been met, and Ms. Thompson stated yes this has been met and this is confirmed on the site plan.

Board Member Smith stated that on the plan it shows a proposed tree line which he assumes to be where clearing has stopped. Board Member Smith asked if this proposed lot is totally wooded at this point. Ms. Thompson stated that there is a proposed tree line that is partially existing and additional screening will fulfill the type 3 screen requirement and will be inspected by staff prior to receiving a certificate of occupancy. Board Member Smith additionally asked if the proposed tree line will go around the entire property, and Ms. Thompson replied "yes".

Chairman Mims called on the applicant representative to provide his case.

Mr. Dave Neill the attorney representative of the applicant explained that the property is currently owned by McDowell Timber Company and many of the adjacent property owners are extended family. Mr. Neill stated this site currently has a dense vegetative covering due to a cut of the property 7-8 years ago, and the intent is to use this existing buffer except in the northwest corner. Mr. Neill explained that he has brought subject matter experts to explain how the four findings of fact have been met by the proposed conditional use permit if needed.

George Retschle stated that in his professional opinion if the proposed solar facility is installed the way it is designed it will not adversely affect public safety or health.

Tom Hester distributed an affidavit that includes an appraisal of the site and after a review of existing solar farms as well as transactions of properties that are similar; Mr. Hester stated there is no affect to property value. Board Member Scott McLeod asked Mr. Hester to monetize “basically similar” and Chairman Mims asked if there was any monetary drop. Mr. Hester stated no.

Board Member Smith asked if the equipment will rot over time. Mr. Neill explained that if a panel does not work then the business model fails. Chairman Mims asked Mr. Neill what the exit strategy is and he explained that a decommissioning plan is required for a certificate of occupancy and the salvage value after a panel’s useful life is greater than the cost to remove it.

Board Member McLeod asked about the height of the panels. George stated that depending on the typography the height would be no greater than 10-15 feet. Board Member McLeod expressed concern regarding the height of a typical pine tree and the coverage that is not provided as they grow.

Board Member Smith asked the applicant if they would throw in some extra landscaping just along the left side along the road. Additional Board Members expressed their concern for additional landscape buffering. Mr. Neill stated that he would like to go back and review the southwest corner and the two planting buffer areas.

Board Member Hayter asked if there is credit given for existing shrubbery and Ms. Thompson stated yes.

Deputy County Attorney Brenda White explained that requested additional planting can only be a recommendation because the requirements have been met.

Mr. Neill stated that he will go in good faith and see if there are spots that could potentially be visible.

Board Member McLeod asked how many solar farms Cypress Creek operates. Mr. Neill explained that are 40 in operation and approximately 100 in the approval process. Board Member McLeod asked if any of the 40 in operation have had to close for any reason and Mr. Neill stated “no”.

Chairman Mims asked if the citizens in the audience had any questions or would like to speak. Ms. Martha Steel of 227 Mt. Carmel road asked if there any hazardous chemical or waste produced by the operation. The applicant stated no and Chairman Mims additionally added that in the Planning Board preliminary research it was found to be very quiet.

Board Member Hayter made a motion to endorse the Moore County Board of Commissioners to approve the Conditional Use Permit for the use of a Solar Collector Facility on the parcel known as ParID# 00004653. The motion was seconded by Board Member Gene Horne and the motion passed unanimously (9-0).

Chairman Mims closed public hearing #1

### **OTHER BOARD MATTERS**

Chairman Mims explained that an Open Space Committee will not be needed to assist the Board of Commissioners at this time.

### **PLANNING DEPARTMENT REPORTS**

Planning Director Debra Ensminger stated that there is the possibility of 4 solar farms next month and Ms. Ensminger discussed the upcoming Department of Transportation meetings scheduled for this later in the month. Ms. Ensminger further explained that the UDO will be reviewed with the intention of making it more business friendly.

### **BOARD COMMENT PERIOD**

Chairman Mims welcomed Board Member Eddie Nobles back.

### **ADJOURNMENT**

With no further comments Chairman Mims adjourned the regular meeting of the Moore County Planning Board.

Respectfully submitted by,

Lydia Cleveland  
Administrative Officer II

**MEMORANDUM TO THE PLANNING BOARD**

**FROM:** Debra Ensminger  
Planning & Transportation Services Director

**DATE:** March 6, 2015

**SUBJECT:** Conditional Use Permit Request: Automobile Sales

**PRESENTER:** Theresa Thompson

**REQUEST**

The applicant, Kenneth Culler, is seeking a Conditional Use Permit for the use of an Automobile Sales Business located in Seven Lakes on two adjacent parcels (ParID 00017369 & 00014378) with a MacDougall Drive address owned by Bruce & Shirley Donaldson as identified in Moore County tax records. The combined parcels are approximately 0.70 acres (30,492 square feet.)

**EXISTING ZONING AND SURROUNDING LAND USE**

The property is zoned Village Business District (VB) which requires a Conditional Use Permit for the use, Automobile Sales. The current use of the property is vacant. Adjacent zoning districts include Village Business District (VB) and the Rural Agricultural Urban Service Boundary District (RA-USB). The adjacent land uses include a dance studio, animal board facility and vacant land.

**WATER AND SEWER**

The property is served by County Water. Per the Fire Marshal, installation of a fire hydrant will not be required. The property is not served by County Sewer. Environmental Health has reviewed the site plan. Septic approval will be required before permits are issued.

**OVERLAY DISTRICTS**

1. Watershed – The property is not located within a Public Water Supply Watershed
2. Floodplain – The property is not located within a Floodplain
3. Wetland – There are no wetlands located on the property
4. Voluntary Agricultural District – The property is not located within the VAD
5. Highway Corridor Overlay District – The property is not located within an HCOD
6. Red Cockaded Woodpecker – The property is not located in the RCW District
7. Fort Bragg Zoning Overlay – The property is not located in the FBZO District

**TRANSPORTATION**

The property has direct access to an existing paved private street (MacDougall Drive). NCDOT approval is not applicable.

## **REQUIRED FINDINGS**

In recommending the Conditional Use Permit the following findings must be met:

1. The use will not materially endanger the public health or safety if located where proposed and developed according to plan;
2. The use meets all required conditions and specifications;
3. The use will not substantially injure the value of adjoining or abutting property unless the use is a public necessity;
4. The location and character of the use, if developed according to the plan as submitted and approved, will be in harmony with the area in which it is to be located and will be in general conformity with the approved Moore County Land Use Plan. In this instance, the proposed use is reflected in the goals of the Moore County Land Use Plan adopted in November 2013. Specifically, Goal 4: Provide Information and Seek Citizen Participation under Recommendation 4.1 states, "Promote efforts to involve and inform citizens of throughout various planning and permitting processes."

## **ADDITIONAL FINDINGS**

Staff recommends the applicant agree to the following additional condition: Should the Zoning Administrator, Building Inspector, Environmental Health, or the Fire Marshal identify minor changes staff shall be authorized to accept such minor modifications to site plan as necessary.

## **STAFF RECOMMENDATION**

Staff recommends the Moore County Planning Board make the following motion:

**Motion:** Make a motion to endorse the Moore County Board of Commissioners to approve/deny the Conditional Use Permit for the use of an Automobile Sales Business on the parcels known as ParID# 00017369 & 00014378.

**MEMORANDUM TO THE PLANNING BOARD**

**FROM:** Debra Ensminger  
Planning & Transportation Services Director

**DATE:** March 6, 2015

**SUBJECT:** Conditional Use Permit Request: Solar Collector Facility,  
Commercial (Jason Rd.)

**PRESENTER:** Theresa Thompson

**REQUEST**

The applicant, Pristine Sun Fund 12, LLC, is seeking a Conditional Use Permit to construct a commercial Solar Collector Facility on Jason Road in the Sheffield Township on a parcel (ParID 00009291) owned by Cynthia Dabestani as identified in the Moore County tax records. The parcel is approximately 28.15 acres per the applicant's site plan.

**EXISTING ZONING AND SURROUNDING LAND USE**

The property is zoned Rural Agricultural (RA). All adjacent properties are zoned Rural Agricultural (RA). The current use of the property is vacant. The adjacent land uses include single family homes and vacant parcels.

**WATER AND SEWER**

The site will not necessitate water or sewer connections.

**OVERLAY DISTRICTS**

1. Watershed – The property is located within the Balance of Watershed III Overlay (WS-III-BW) District which allows a maximum of 24% impervious surface. The project proposes 0.090% impervious surface.
2. Floodplain – The property is not located within a floodplain.
3. Wetland – There are no wetlands located on the property though there is a pond located outside of the project area. Per the applicant, the field delineation will be complete before a zoning permit is issued.
4. Voluntary Agricultural District – The property is within one-half mile of a VAD.
5. Highway Corridor Overlay District – The property is not located within an HCOD.
6. Red Cockaded Woodpecker – The property is not located in the RCW District.
7. Fort Bragg Zoning Overlay – The property is not located in the FBZO District.

**TRANSPORTATION**

The property has access to an existing paved NCDOT highway (Jason Road.) NCDOT will determine if a driveway permit is required. Per NCDOT, solar farms are not required to pave the entrance due to the low traffic generated.

## **REQUIRED FINDINGS**

In recommending the Conditional Use Permit the following findings must be met:

1. The use will not materially endanger the public health or safety if located where proposed and developed according to plan;
2. The use meets all required conditions and specifications;
3. The use will not substantially injure the value of adjoining or abutting property unless the use is a public necessity;
4. The location and character of the use, if developed according to the plan as submitted and approved, will be in harmony with the area in which it is to be located and will be in general conformity with the approved Moore County Land Use Plan. In this instance, the proposed use is reflected in the goals of the Moore County Land Use Plan adopted in November 2013. Specifically, Goal 3: Optimize the Uses of Land Within the County of Moore; under Goal 3, Action 3.4.4 states, "Plan for the development of alternative energy systems that minimize the adverse impacts to prime agricultural lands and public water supply watersheds."

## **ADDITIONAL CONDITIONS**

Staff recommends the applicant agree to the following additional condition: Should the Zoning Administrator, Building Inspector, Environmental Health, the Fire Marshal, or NCDOT identify minor changes staff shall be authorized to accept such minor modifications to site plan as necessary.

## **STAFF RECOMMENDATION**

Staff recommends the Moore County Planning Board make the following motion:

**Motion:** Make a motion to endorse the Moore County Board of Commissioners to approve/deny the Conditional Use Permit for the use of a Solar Collector Facility on the parcel known as ParID# 00009291.

**PRESENTER:** Theresa Thompson

**REQUEST**

The applicant, Vass Solar 2 LLC, is seeking a Conditional Use Permit to construct a commercial Solar Collector Facility on Morrison Bridge Road in the Little River Township on a parcel (ParID 00042822) owned by Lewis and Edith Foster as identified in the Moore County tax records. The parcel is approximately 78.74 acres.

**EXISTING ZONING AND SURROUNDING LAND USE**

The property is zoned Rural Agricultural (RA). Adjacent properties are zoned Rural Agricultural (RA), Gated Community – Woodlake District (GC-WL), and Rural Agricultural Urban Service Boundary (RA-USB). The current use of the property is vacant. The adjacent land uses include single family homes and vacant parcels.

**WATER AND SEWER**

The site will not necessitate water or sewer connections.

**OVERLAY DISTRICTS**

1. Watershed – The property is located within the Balance of Watershed III Overlay (WS-III-BW) District which allows a maximum of 24% impervious surface. The project proposes 4.12% impervious surface. There is a stream located in the northeast section of the property. The stream is located outside of the project area.
2. Floodplain – The north half section of property is located within the .2% and AE Zone. Per the applicant, there are no activities proposed that will require a floodplain development permit. Per the applicant, clearing is an allowable activity in the floodplain as long as it does not result in fill or debris being left that will impede water flow.
3. Wetland – Per the applicant’s wetland delineation report the project area is located outside of the wetland area.
4. Voluntary Agricultural District – The property is within one-half mile of a VAD.
5. Highway Corridor Overlay District – The property is not located within an HCOD.
6. Red Cockaded Woodpecker – The property is not located in the RCW District.
7. Fort Bragg Zoning Overlay – The property is located in the FBZO District. The executive director of the Regional Land Use Advisory Commission has been notified.

## **TRANSPORTATION**

The property has access to an existing paved NCDOT highway (Morrison Bridge Road). NCDOT will determine if a driveway permit is required. Per NCDOT, solar farms are not required to pave the entrance due to the low traffic generated.

## **REQUIRED FINDINGS**

In recommending the Conditional Use Permit the following findings must be met:

1. The use will not materially endanger the public health or safety if located where proposed and developed according to plan;
2. The use meets all required conditions and specifications;
3. The use will not substantially injure the value of adjoining or abutting property unless the use is a public necessity;
4. The location and character of the use, if developed according to the plan as submitted and approved, will be in harmony with the area in which it is to be located and will be in general conformity with the approved Moore County Land Use Plan. In this instance, the proposed use is reflected in the goals of the Moore County Land Use Plan adopted in November 2013. Specifically, Goal 3: Optimize the Uses of Land Within the County of Moore; under Goal 3, Action 3.4.4 states, "Plan for the development of alternative energy systems that minimize the adverse impacts to prime agricultural lands and public water supply watersheds."

## **ADDITIONAL CONDITIONS**

Staff recommends the applicant agree to the following additional condition: Should the Zoning Administrator, Building Inspector, Environmental Health, the Fire Marshal, or NCDOT identify minor changes staff shall be authorized to accept such minor modifications to site plan as necessary.

## **STAFF RECOMMENDATION**

Staff recommends the Moore County Planning Board make the following motion:

**Motion:** Make a motion to endorse the Moore County Board of Commissioners to approve/deny the Conditional Use Permit for the use of a Solar Collector Facility on the parcel known as ParID# 00042822.

STATE OF NORTH CAROLINA

BEFORE THE  
MOORE COUNTY BOARD OF  
COMMISSIONERS

IN RE: Vass Solar 2, LLC - Solar Collector Facility  
Moore County PIN: 9543-03-21-8423

Address: Morrison Bridge Road, Vass, North Carolina

**STATEMENT OF JUSTIFICATION IN SUPPORT OF THE  
CONDITIONAL USE PERMIT APPLICATION<sup>1</sup>**

NOW COMES THE PETITIONER, by and through counsel of record, respectfully requests approval of their application for a conditional use permit to operate a Solar Collector Facility. In support of this request, Petitioner provides the following information:

**I. Introduction**

Vass Solar 2, LLC proposes to construct a solar collector facility (commonly known as a "solar farm") on 48.50± acres of the 78.74± acre parcel owned by Edith Foster, John Foster and Lewis Foster on Morrison Bridge Road in Moore County. The property is currently zoned RA. The proposed solar farm is classified as a "Solar Collector Facility" under Section 9.3.27 of the Moore County, North Carolina Unified Development Ordinance (UDO).

The solar farm will contain rows of Photovoltaic (PV) cell panels mounted on posts set in the ground individually. These rows of panels are referred to as "solar arrays." The solar arrays will be fixed in place facing south in order to receive the maximum amount of solar energy. This configuration contains no moving parts. The power generated from the solar farm will be sold to Duke Energy for use by consumers to replace energy produced from a non-renewable source.

**II. Statement in Support of Application**

**A. The proposed use will not materially endanger the public health or safety if located where proposed and developed according to plan.**

The proposed solar farm will not endanger the public health or safety. The site will generate almost no traffic. The solar facility will not be staffed daily. Employees are expected to visit the property weekly or less frequently to check and maintain the equipment, mow the grass and make repairs. The area immediately surrounding the solar arrays will be enclosed by a six foot (6') high fence for security purposes.

---

<sup>1</sup> This brief has been amended in response to the Moore County Board of Commissioners' adoption of a text amendment to the standards for Solar Collector Facilities in January 2015.

The proposed solar farm will protect against soil erosion and sedimentation. Care is taken to minimize grading on the site by individually setting poles to support the solar cells. The areas beneath the solar panels will be planted with vegetation to stabilize the site. During construction, erosion control measures will be maintained in accordance with County regulations. The site will comply with State of North Carolina and Moore County stormwater regulations.

The proposed solar farm will protect the public, community and/or private water supplies and avoid adverse impacts on surface water or ground water. As there will be no employees on site, there is no need for installation of additional utilities or infrastructure. State environmental buffers will be maintained and respected.

**B. The proposed use meets all required conditions and specifications.**

The proposed solar farm will comply with all of the requirements in the RA zoning district and the UDO:

- The proposed solar farm meets all required setbacks, including inverter setbacks and screening requirements, pursuant to Section 8.2 of the UDO.
- The solar components located on-site will have a UL listing, or a listing from an alternative testing agency accepted by the local jurisdiction having authority over the project, and must be designed with anti-reflective coating(s).
- All construction will comply with the National Electric Code and North Carolina Building Code.
- No structure will exceed a height of twenty-five feet (25') when measured pursuant to the UDO requirements.
- All power transmission lines from a ground-mounted solar energy system will be located underground, excluding existing utilities.
- Access to the site will be controlled by a fence at least six feet (6') in height with 24/7 emergency access. The solar farm will be enclosed by a six foot (6') fence with 3-strand barbed wire or razor wire.
- The electrical disconnect switch will be clearly identified and unobstructed at all times. The Petitioner will file a map with the Moore County Public Safety Department depicting where the electrical disconnect is located, and will supply all emergency contact information to emergency personnel to have on file.

**C. The proposed use will not substantially injure the value of adjoining property or abutting property unless the use is a public necessity.**

The proposed use will not injure the value of adjoining properties. Solar farms are quiet. The solar arrays have no moving parts. The only sound occurs during daylight hours with the quiet hum of electrical transformers, invertors, and the substation delivering solar power to the power grid. At night, when the sun is not available, there is no energy being created and no noise on the site. Solar farms generate fewer vehicles trips than the average home. Employees visit the site once a week or even less frequently. Solar panels are designed to absorb light, rather than reflect it, which mitigates and off-site glare concerns.

Solar energy is a public necessity. Demand for electricity has increased in recent years, and our society is currently dependent upon conventional sources of power such as coal, gas, and nuclear energy. Conventional sources of electricity are expensive, finite resources that require significant environmental disruption and public safety risk to maintain or extract. Solar energy is a clean, cheap, unlimited resource with little environmental impact.

**D. The location and character of the use, if developed according to the plan as submitted and approved, will be in harmony with the area in which it is to be located and will be in general conformity with the approved Moore County Land Use Plan.**

The proposed solar farm is consistent with the rural residential and agricultural land use pattern that exists in the area today. Solar farms make good neighbors: they are quiet and they do not create the noise, dust, or odor as a traditional "farm" can. Solar panels are shorter in height than a typical home. When mounted on racks, the solar panels will be less than 10' in height. A twenty foot (20') Type 3 screening yard will provide a transition between the solar farm and immediately adjacent properties as show on the proposed site plan.

The proposed solar farm is consistent with the Moore County 2013 Land Use Plan (LUP). The subject property is designated for Rural Agricultural uses on the Future Land Use Map in the LUP. The Residential Agricultural designation encourages land uses designed to support rural residential life and discourages subdivisions. The LUP identifies local energy production, such as solar farms, as an economic development opportunity that is compatible with residential uses saying "[f]rom a land use perspective, [solar collector facilities] can be accommodated adjacent to residential properties as they emit little noise and/or glare." (Moore County 2013 Land Use Plan, p. 62).

Allowing the property to develop as a solar farm maintains the rural character of the area while providing a sustainable benefit to the community. In addition, the proposed solar farm will consume practically no county services: no seats in county schools or on school buses, virtually no refuse or recycling needs, no special sheriff protection, no light pollution, no emissions of any kind, no demand for water from depleted aquifers, and no sewage disposal.

For the reasons set forth above, the Petitioner respectfully requests that the Moore County Board of Commissioners draws conclusions from the facts presented above and as presented at the hearing on this Conditional Use Permit in favor of this application for a Conditional Use Permit for Solar Collector Facility.

This, the 27th day of February 2015.

Respectfully submitted,

/s/ David J. Neill

*Attorney for Vass 2 Solar, LLC*

**MEMORANDUM TO THE PLANNING BOARD**

**FROM:** Debra Ensminger  
Planning & Transportation Services Director

**DATE:** March 6, 2015

**SUBJECT:** Conditional Use Permit Request: Solar Collector Facility,  
Commercial (Lobelia Rd.)

**PRESENTER:** Theresa Thompson

**REQUEST**

The applicant, Lobelia Solar, LLC, is seeking a Conditional Use Permit to construct a commercial Solar Collector Facility off of Lobelia Road in the Little River Township on a parcel (ParID 00044233) owned by Clinton and Elizabeth Williams as identified in the Moore County tax records. The parcel is approximately 86.14 acres.

**EXISTING ZONING AND SURROUNDING LAND USE**

The property is zoned Rural Agricultural (RA). All adjacent properties are zoned Rural Agricultural (RA) and Rural Agricultural Urban Service Boundary (RA-USB). The current use of the property is vacant. The adjacent land uses include single family homes and vacant parcels.

**WATER AND SEWER**

The site will not necessitate water or sewer connections.

**OVERLAY DISTRICTS**

1. Watershed – The property is located within the Balance of Watershed III Overlay (WS-III-BW) District which allows a maximum of 24% impervious surface. The project proposes 2.9% impervious surface. There is a stream located at the southwest corner of the property. WS-III-BW requires a 30 foot stream buffer. Per the applicant, the driveway is existing and the 30 foot buffer is not required at the crossing.
2. Floodplain – The northern section of property is located within the AE Zone though the solar collector facility is not located within a Flood Prone Area as depicted on the applicant's site plan.
3. Wetland – There are wetland areas located in the northern, central, and southern areas of the property, per the applicant's field delineation report. The applicant indicated that an existing access crossing over the wetland at the southern end does not require a 401 Wetland Permit. An Army Corps of Engineers Statement of Concurrence is being sought by the applicant. No new development is depicted in the wetlands areas as shown on the site plan. Per the applicant, clearing for shade buffers is an allowable and exempt activity as long as tracked equipment is not utilized and no grubbing takes place.
4. Voluntary Agricultural District – The property is within one-half mile of a VAD.
5. Highway Corridor Overlay District – The property is not located within an HCOD.
6. Red Cockaded Woodpecker – The property is not located in the RCW District.

7. Fort Bragg Zoning Overlay – The property is located in the FBZO District. The executive director of the Regional Land Use Advisory Commission has been notified.

### **TRANSPORTATION**

The property has access to an existing paved NCDOT highway (Lobelia Road) through a deeded access easement (Twin Ponds Lane). NCDOT will determine if a driveway permit is required. Per NCDOT, solar farms are not required to pave the entrance due to the low traffic generated.

### **REQUIRED FINDINGS**

In recommending the Conditional Use Permit the following findings must be met:

1. The use will not materially endanger the public health or safety if located where proposed and developed according to plan;
2. The use meets all required conditions and specifications;
3. The use will not substantially injure the value of adjoining or abutting property unless the use is a public necessity;
4. The location and character of the use, if developed according to the plan as submitted and approved, will be in harmony with the area in which it is to be located and will be in general conformity with the approved Moore County Land Use Plan. In this instance, the proposed use is reflected in the goals of the Moore County Land Use Plan adopted in November 2013. Specifically, Goal 3: Optimize the Uses of Land Within the County of Moore; under Goal 3, Action 3.4.4 states, “Plan for the development of alternative energy systems that minimize the adverse impacts to prime agricultural lands and public water supply watersheds.”

### **ADDITIONAL CONDITIONS**

Staff recommends the applicant agree to the following additional condition: Should the Zoning Administrator, Building Inspector, Environmental Health, the Fire Marshal, or NCDOT identify minor changes staff shall be authorized to accept such minor modifications to site plan as necessary.

### **STAFF RECOMMENDATION**

Staff recommends the Moore County Planning Board make the following motion:

**Motion:** Make a motion to endorse the Moore County Board of Commissioners to approve/deny the Conditional Use Permit for the use of a Solar Collector Facility on the parcel known as ParID# 00044233.

COMMISSIONERS

IN RE: Lobelia Solar, LLC - Solar Collector Facility  
Moore County PIN: 9534-03-14-8287

Address: Twin Ponds Lane & Lobelia Road, Vass, North Carolina

**STATEMENT OF JUSTIFICATION IN SUPPORT OF THE  
CONDITIONAL USE PERMIT APPLICATION**

NOW COMES THE PETITIONER, by and through counsel of record, and respectfully requests approval of their application for a conditional use permit to operate a Solar Collector Facility. In support of this request, Petitioner provides the following information:

**I. Introduction**

Lobelia Solar, LLC proposes to construct a solar collector facility (commonly known as a "solar farm") on the 86.14± acre parcel owned by Clinton Chan Williams and Elizabeth Williams on Twin Ponds Lane & Lobelia Road in Moore County. The property is currently zoned RA. The proposed solar farm is classified as a "Solar Collector Facility" under Section 9.3.27 of the Moore County, North Carolina Unified Development Ordinance (UDO).

The solar farm will contain rows of Photovoltaic (PV) cell panels mounted on posts set in the ground individually. These rows of panels are referred to as "solar arrays." The solar arrays will be fixed in place facing south in order to receive the maximum amount of solar energy. This configuration contains no moving parts. The power generated from the solar farm will be sold to Duke Energy for use by consumers to replace energy produced from a non-renewable source.

**II. Statement in Support of Application**

A. The proposed use will not materially endanger the public health or safety if located where proposed and developed according to plan.

The proposed solar farm will not endanger the public health or safety. The site will generate almost no traffic. The solar facility will not be staffed daily. Employees are expected to visit the property weekly or less frequently to check and maintain the equipment, mow the grass and make repairs. The area immediately surrounding the solar arrays will be enclosed by a six foot (6') high fence for security purposes.

The proposed solar farm will protect against soil erosion and sedimentation. Care is taken to minimize grading on the site by individually setting poles to support the solar cells. The areas beneath the solar panels will be planted with vegetation to stabilize the site. During construction, erosion control measures will be maintained in accordance with County regulations. The site will comply with State of North Carolina and Moore County stormwater regulations.

The proposed solar farm will protect the public, community and/or private water supplies and avoid adverse impacts on surface water or ground water. As there will be no employees on site, there is no need for installation of additional utilities or infrastructure. State environmental buffers will be maintained and respected.

**B. The proposed use meets all required conditions and specifications.**

The proposed solar farm will comply with all of the requirements in the RA zoning district and the UDO:

- The proposed solar farm meets all required setbacks, including inverter setbacks and screening requirements, pursuant to Section 8.2 of the UDO.
- The solar components located on-site will have a UL listing, or a listing from an alternative testing agency accepted by the local jurisdiction having authority over the project, and must be designed with anti-reflective coating(s).
- All construction will comply with the National Electric Code and North Carolina Building Code.
- No structure will exceed a height of twenty-five feet (25') when measured pursuant to the UDO requirements.
- All power transmission lines from a ground-mounted solar energy system will be located underground, excluding existing utilities.
- Access to the site will be controlled by a fence at least six feet (6') in height with 24/7 emergency access. The solar farm will be enclosed by a six foot (6') fence with 3-strand barbed wire or razor wire.
- The electrical disconnect switch will be clearly identified and unobstructed at all times. The Petitioner will file a map with the Moore County Public Safety Department depicting where the electrical disconnect is located, and will supply all emergency contact information to emergency personnel to have on file.

**C. The proposed use will not substantially injure the value of adjoining property or abutting property unless the use is a public necessity.**

The proposed use will not injure the value of adjoining properties. Solar farms are quiet. The solar arrays have no moving parts. The only sound occurs during daylight

hours with the quiet hum of electrical transformers, invertors, and the substation delivering solar power to the power grid. At night, when the sun is not available, there is no energy being created and no noise on the site. Solar farms generate fewer vehicles trips than the average home. Employees visit the site once a week or even less frequently. Solar panels are designed to absorb light, rather than reflect it, which mitigates and off-site glare concerns.

Solar energy is a public necessity. Demand for electricity has increased in recent years, and our society is currently dependent upon conventional sources of power such as coal, gas, and nuclear energy. Conventional sources of electricity are expensive, finite resources that require significant environmental disruption and public safety risk to maintain or extract. Solar energy is a clean, cheap, unlimited resource with little environmental impact.

**D. The location and character of the use, if developed according to the plan as submitted and approved, will be in harmony with the area in which it is to be located and will be in general conformity with the approved Moore County Land Use Plan.**

The proposed solar farm is consistent with the rural residential and agricultural land use pattern that exists in the area today. Solar farms make good neighbors: they are quiet and they do not create the noise, dust, or odor as a traditional "farm" can. Solar panels are shorter in height than a typical home. When mounted on racks, the solar panels will be less than 10' in height. A twenty foot (20') Type 3 screening yard will provide a transition between the solar farm and immediately adjacent properties as show on the proposed site plan.

The proposed solar farm is consistent with the Moore County 2013 Land Use Plan (LUP). The subject property is designated for Rural Agricultural uses on the Future Land Use Map in the LUP. The Residential Agricultural designation encourages land uses designed to support rural residential life and discourages subdivisions. The LUP identifies local energy production, such as solar farms, as an economic development opportunity that is compatible with residential uses saying "[f]rom a land use perspective, [solar collector facilities] can be accommodated adjacent to residential properties as they emit little noise and/or glare." (Moore County 2013 Land Use Plan, p. 62).

Allowing the property to develop as a solar farm maintains the rural character of the area while providing a sustainable benefit to the community. In addition, the proposed solar farm will consume practically no county services: no seats in county schools or on school buses, virtually no refuse or recycling needs, no special sheriff protection, no light pollution, no emissions of any kind, no demand for water from depleted aquifers, and no sewage disposal.

For the reasons set forth above, the Petitioner respectfully requests that the Moore County Board of Commissioners draws conclusions from the facts presented above and

as presented at the hearing on this Conditional Use Permit in favor of this application for a Conditional Use Permit for Solar Collector Facility.

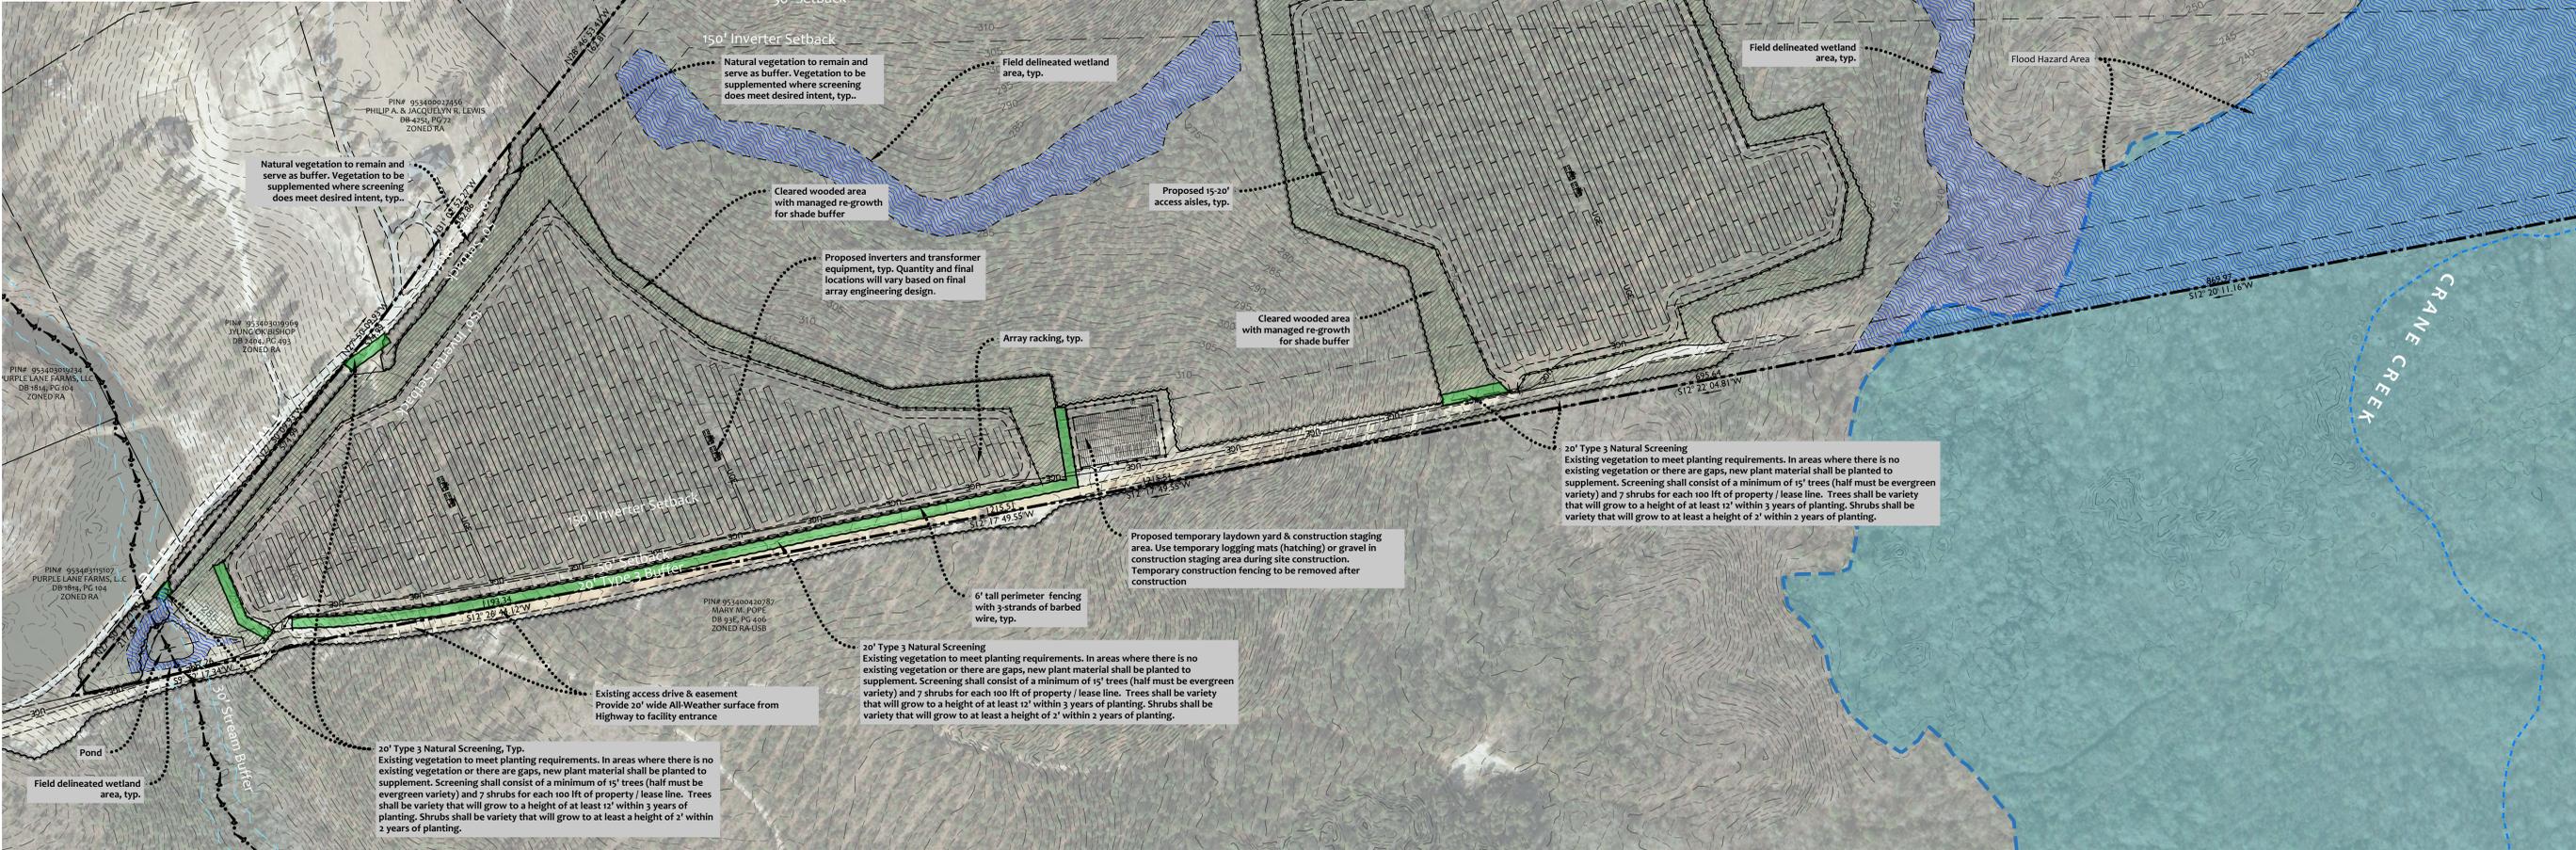

This, the 27th day of February 2015.

Respectfully submitted,

/s/ David J. Neill

**NOTES**

- THE PURPOSE OF THIS SITE PLAN IS TO DEPICT THE LAYOUT OF THE SOLAR COLLECTOR FACILITY, ITS INTERCONNECTION TO THE EXISTING POWER INFRASTRUCTURE, AND TO OBTAIN A CONDITIONAL USE PERMIT FOR THE USE, REVIEW AND APPROVAL BY THE ZONING ADMINISTRATOR OR MINOR MODIFICATIONS TO THE SITE PLAN ARE REQUESTED IN REGARDS TO THE LOCATIONS AND QUANTITY OF RACKING, NUMBER AND LOCATION OF INVERTERS, ACCESS AISLES, DRIVEWAYS, AND UNDERGROUND ELECTRIC INTERCONNECTION ROUTING UPON THE COMPLETION OF FINAL ENGINEERING DRAWINGS FOR THE FACILITY. HOWEVER, ALL SUCH MINOR MODIFICATIONS TO THE FINAL SITE PLAN SHALL COMPLY WITH ALL APPLICABLE SECTIONS OF THE MOORE COUNTY UNIFIED DEVELOPMENT ORDINANCE (UDO) AND VERIFIED BY THE MOORE COUNTY ZONING ADMINISTRATOR PRIOR TO ISSUING A ZONING PERMIT FOR USE.
- TOPOGRAPHIC DATA & EXISTING IMPROVEMENTS SHOWN ON THIS PLAN IS PER PUBLICLY AVAILABLE DATA SOURCES.
- THE PROPERTY SHOWN HEREON DOES CONTAIN SPECIAL FLOOD HAZARD AREAS (SFHAS) SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD (1:100-YR. EVENT) PER FEMA FIRM MAP NO. 37109534001 EFFECTIVE DATE 10/17/2006.
- ALL RIGHT-OF-WAYS ARE PUBLIC, UNLESS NOTED OTHERWISE.
- UTILITY LINES AND SERVICES SHOWN HEREON ARE APPROXIMATE PER AERIAL PHOTOGRAPHY OR AS REPORTED BY VARIOUS RESPONSIBLE PARTIES. LOCATION OF UNDERGROUND UTILITIES ARE APPROXIMATE AND MUST BE FIELD VERIFIED. CALL NC ONE CALL CENTER BEFORE DIGGING AT 811.
- COPIES OF ALL PERMITS AND APPROVED PLANS MUST BE KEPT ON-SITE IN A PERMIT BOX THAT IS CONSPICUOUSLY LOCATED AND EASILY ACCESSIBLE DURING CONSTRUCTION.
- A SEDIMENTATION & EROSION CONTROL PERMIT WILL BE OBTAINED FROM NCDENR LAND QUALITY SECTION.
- A DRIVEWAY PERMIT WILL BE APPROVED BY NCDOT PRIOR TO BEGINNING CONSTRUCTION. FINAL DRIVEWAY LOCATION(S) & REQUIREMENTS ARE SUBJECT TO PERMIT REVIEW AND APPROVAL.
- PROJECT AREA, INCLUDING CONSTRUCTION STAGING AREAS, WILL BE CLEARED AND GRUBBED AS NECESSARY, RETAINING PRE-DEVELOPMENT DRAINAGE PATTERNS (I.E. NO MASS GRADING). A PORTION OF PROJECT AREAS MAY CONSIST OF TREE CLEARING ONLY (NO GRUBBING) TO ALLEVIATE SHADING OF THE ARRAY, AS INDICATED ON THE SITE PLAN. MINOR GRADING WILL OCCUR AROUND INVERTER AREAS TO DIVERSIFY SURFACE DRAINAGE. CONSTRUCTION STAGING AND AREAS SUBJECT TO RUTTING DURING CONSTRUCTION WILL BE TEMPORARILY STABILIZED WITH LOGGING MATS (WHICH WILL BE REMOVED FOLLOWING CONSTRUCTION) OR GRAVEL WHICH WILL REMAIN AFTER CONSTRUCTION. SOIL CONDITIONS AND EQUIPMENT LOADS WILL DETERMINE FINAL DESIGN.
- PROPOSED TEMPORARY LAYDOWN YARD/CONSTRUCTION STAGING AREA TO BE USED DURING SITE CONSTRUCTION. A PORTION OF THIS AREA (HATCHED) WILL BE COVERED WITH LOGGING MATS OR OTHER STABILIZED SURFACING TO ALLOW DELIVERY OF CONSTRUCTION MATERIALS. PRIOR TO CONSTRUCTION, THIS AREA WILL BE COMPACTED BY A SMOOTH DRUM OR SHEEPS FOOT ROLLER TO REDUCE/PREVENT RUTTING. FOLLOWING CONSTRUCTION, THE LOGGING MATS (OR OTHER SURFACING) ARE REMOVED AND THE ENTIRE AREA IS SCARIFIED AND RE-SEED.
- ACCESS AISLES SHOWN ON THIS PLAN INDICATE CONSTRUCTION AND MAINTENANCE ACCESS POINTS FOR INGRESS/EGRESS. PRIOR TO CONSTRUCTION, THESE AISLES ARE COMPACTED BY A SMOOTH DRUM OR SHEEPSFOOT ROLLER TO REDUCE/PREVENT RUTTING. LOGGING MATS MAY BE PLACED IN HIGH TRAFFIC OR POORLY DRAINING AREAS DURING CONSTRUCTION ACTIVITIES TO IMPROVE ACCESS. NO PERMANENT IMPROVEMENTS OR IMPERVIOUS SURFACES (I.E. GRAVEL OR ASPHALT) WILL BE INSTALLED IN SOIL ACCESS AISLES FOR CONSTRUCTION OR MAINTENANCE ACTIVITIES. SOIL ACCESS AISLES WILL BE SCARIFIED, AERATED, AND RE-SEED AFTER CONSTRUCTION. ACCESS ISLES TO INVERTERS MAY REQUIRE GRAVEL TO SUPPORT DELIVERY EQUIPMENT LOADS. SOIL CONDITIONS AND FINAL EQUIPMENT SELECTION WILL DETERMINE IF GRAVEL ACCESS ISLE WILL BE REQUIRED TO INVERTER LOCATIONS.
- PROPOSED ACCESS GATE(S) ARE 6' TALL CHAIN LINK WITH 3 STRANDS OF BARBED WIRE. GATES WILL BE LOCKED WITH STANDARD KEYS OR COMBINATION LOCK. EMERGENCY PERSONNEL (AS DESIGNATED BY MOORE COUNTY) WILL BE PROVIDED A KEY OR COMBINATION FOR 24/7 ACCESS.
- NO PERMANENT LIGHTING IS PROPOSED FOR THIS SITE.
- ONLY SITE SPECIFIC SIGNAGE IS ALLOWED. PROPOSED SIGNAGE SHALL BE ALUMINUM SIGNS ("DANGER - HIGH VOLTAGE" AND "DANGER - NO TRESPASSING") MEASURING 14" X 10" IN SIZE, WILL BE PLACED ON PERMANENT SECURITY FENCING, ALTERNATING EVERY 100' AROUND THE ARRAY.
- THE PHOTOVOLTAIC (PV) PANELS ARE TO BE LOCATED AND SITUATED SO GLARE DOES NOT CREATE A DISTRACTION OR NUISANCE TO TRAFFIC OR ADJACENT RESIDENTIAL PROPERTIES.
- SOLAR COMPONENTS MUST HAVE A UL LISTING, OR A LISTING FROM AN ALTERNATIVE TESTING AGENCY ACCEPTED BY THE LOCAL JURISDICTION HAVING AUTHORITY OVER THE PROJECT, AND MUST BE DESIGNED WITH ANTI-REFLECTIVE COATING(S).
- ALL CONSTRUCTION SHALL BE IN COMPLIANCE WITH THE NATIONAL ELECTRIC CODE AND NORTH CAROLINA BUILDING CODE.
- NO STRUCTURE SHALL EXCEED A HEIGHT GREATER THAN TWENTY-FIVE (25) FEET, EXCEPT FOR EXISTING POLES/OVERHEAD WIRING AND REQUIRED NEW INTERCONNECTION POLES REQUIRED BY UTILITY COMPANY AT POINT OF INTERCONNECTION. THIS IS MEASURED FROM FINISHED GRADE AT THE BASE OF THE STRUCTURE TO ITS HIGHEST POINT.
- ALL POWER TRANSMISSION LINES FROM A GROUND MOUNTED SOLAR ENERGY SYSTEM SHALL BE LOCATED UNDERGROUND, EXCLUDING EXISTING UTILITIES.
- INVERTER(S) SHALL BE LOCATED A MINIMUM ONE HUNDRED AND FIFTY (150) FEET FROM ANY PROPERTY LINE OR PUBLIC RIGHT-OF-WAY.
- THE ELECTRICAL DISCONNECT SWITCH SHALL BE CLEARLY IDENTIFIED AND UNOBSTRUCTED AT ALL TIMES. THE OWNER MUST FILE A MAP WITH THE MOORE COUNTY PUBLIC SAFETY DEPARTMENT DEPICTING WHERE THE DISCONNECT SWITCH IS LOCATED, AND SUPPLY ALL EMERGENCY CONTACT INFORMATION TO EMERGENCY PERSONNEL TO HAVE ON FILE.
- THE PROPOSED FACILITY IS CONNECTED TO AN EXISTING ELECTRICAL SUBSTATION THAT CAN ACCOMMODATE THE PROPOSED ELECTRICAL PRODUCTION.
- THIS PROPERTY IS NEAR AN AREA THAT IS PRESENTLY USED FOR AGRICULTURAL PURPOSES. NORMAL AGRICULTURAL OPERATIONS MAY CONFLICT WITH RESIDENTIAL LAND USE. NC LAW (GENERAL STATUTES SECTION 106-20) PROVIDES SOME PROTECTION FOR EXISTING AGRICULTURAL OPERATIONS AGAINST NUISANCE LAWS.
- DATE OF LATEST SURVEY IS UNKNOWN. A COMPLETE BOUNDARY AND TOPOGRAPHIC SURVEY WILL BE COMPLETED AFTER CLIP APPROVAL AND SUBMITTED TO THE MOORE COUNTY ZONING ADMINISTRATOR PRIOR TO ISSUING A ZONING PERMIT.

(Rack shown is typical. Final rack selection/design will be based on final engineering plans. Number of support posts, orientation of panels, overall height and overall length of each rack may vary upon final design.)
