1.0 INTRODUCTION

Title VI of the 1964 Civil Rights Act, 42 U.S.C. 2000d provides that: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." The broader application of nondiscrimination law is found in other statutes, executive orders, and regulations, which provide additional protections based on age, sex, creed, and disability, including the 1987 Civil Rights Restoration Act, which extended nondiscrimination coverage to all programs and activities of federal-aid recipients, subrecipients, and contractors, including those that are not federally-funded (see Appendix A – Applicable Nondiscrimination Authorities).

Moore County Transportation Services is a recipient of Federal financial assistance from the North Carolina Department of Transportation (NCDOT) and the United States Department of Transportation (USDOT), receiving Federal Transit Administration (FTA) funds through the NCDOT. As the primary recipient of USDOT funds in North Carolina, the NCDOT’s comprehensive Title VI Nondiscrimination Program includes compliance oversight and technical assistance responsibilities towards its subrecipients and those subrecipients must use federal and state funds in a nondiscriminatory manner.

Moore County Transportation Services establishes this Title VI Nondiscrimination Plan for the purpose of complying with Title VI of the Civil Rights Act of 1964, as required by FTA Circular 4702.1B, and related requirements outlined under Group 01.D. "Nondiscrimination Assurance," of the FTA Certifications and Assurances. This document details the nondiscrimination program, policies, and practices administered by this organization, and will be updated periodically to incorporate changes and additional responsibilities as they are made.

8.7 **POPULATION LOCATIONS**

Federal-aid recipients are required to know the characteristics and locations of populations they serve, particularly by race/ethnicity, poverty and limited English proficiency. This can be accomplished through maps that overlay boundaries and demographic features on specific communities.

9.0 **TITLE VI EQUITY ANALYSES (AND ENVIRONMENTAL JUSTICE ASSESSMENTS)**

As required under FTA C 4702.1B and 4703.1, Title VI equity and environmental justice (EJ) analyses will be conducted whenever we plan to construct (or modify) a facility, such as a vehicle storage facility, maintenance facility, operation center, etc., or when there will be a change in fares. These studies will be conducted to see if the change could result in either a disparate impact based on race, color or national origin (Title VI) or a disproportionately high and adverse impact to minority and/or low-income populations (EJ). Thus, they will look at various alternatives before selecting a site for the facility. Project-specific demographic data will be collected on potentially affected communities and their involvement in associated decision-making activities will be documented. Specific studies will be made available to oversight agencies during compliance reviews or to evidence our due diligence should a complaint be filed in relation to the location and effect of a proposed facility or fare increases. Project-related equity and EJ studies will remain on file indefinitely.
10.0 PUBLIC INVOLVEMENT

10.1 INTRODUCTION

Effective public involvement is a key element in addressing Title VI in decision-making. Recipients engaged in planning and other decision-making activities must have a documented public participation process that provides adequate notice of public participation activities, and early and continuous opportunities for public review and comment at key decision points. Underlying these efforts is our commitment to determining the most effective outreach methods for a given project or population.

This Public Participation Plan describes how Moore County Transportation Services will disseminate vital agency information and engage the public by seeking out and considering the needs and input of interested parties and those traditionally underserved by existing transportation systems, such as minority and limited English proficient persons, who may face challenges accessing programs and other services. General public involvement practices will include:

- Scheduling meetings at times and locations that are convenient and accessible for minority and LEP communities.
- Employing different meeting sizes and formats.
- Coordinating with community college, community- and faith-based organizations, educational institutions, and other entities to implement public engagement strategies that reach out specifically to members of affected minority and/or LEP communities.
- Providing opportunities for public participation through means other than written communication, such as personal interviews or use of audio or video recording devices to capture oral comments.
- Considering radio, television, or newspaper ads on stations and in publications that serve LEP populations. Outreach to LEP persons could also include audio programming available on podcasts.

10.2 PUBLIC NOTIFICATION

Passengers and other interested persons will be informed of their rights under Title VI and related authorities with regard to our program. The primary means of achieving this will be posting and disseminating the policy statement and notice as stipulated in Sections 3.0 and 4.0, respectively. Additional measures may include openly stating our obligations and the public's rights at meetings, placing flyers at places frequented by targeted populations, and an equal opportunity tag-on at the end of radio announcements. The method of notification will be determined through an initial screening of the area.

10.3 DISSEMINATION OF INFORMATION

Information on Title VI and other programs will be crafted and disseminated to employees, contractors and subrecipients, stakeholders, and the general public. Public dissemination efforts may vary depending on factors present, but will generally include: posting public statements setting forth our nondiscrimination policy in eye-catching designs and locations; placing brochures in public places, such as government offices, transit facilities, and libraries; having nondiscrimination language within contracts; including nondiscrimination notices in meeting announcements and handouts; and displaying our Notice of Nondiscrimination at all our public meetings.

At a minimum, nondiscrimination information will be disseminated on our website and on posters in conspicuous areas at our office(s). Project-related information and our most current Title VI-related information will be maintained online.

10.4 MEETINGS AND OUTREACH

There is no one-size-fits-all approach to public involvement. A variety of comprehensive and targeted public participation methods will be used to facilitate meaningful public involvement. Methods for engaging stakeholders
and target audiences, including traditionally underserved and excluded populations (i.e., minorities, youth, low-income, the disabled, etc.) will include the following:

**Public Relations and Outreach**
Public relations and outreach (PRO) strategies aim to conduct well-planned, inclusive and meaningful public participation events that foster good relations and mutual trust through shared decision-making with the communities we serve.

- We will seek out and facilitate the involvement of those potentially affected.
- Public events will aim to be collaborative, fun, and educational for all, rather than confrontational and prescriptive.
- Media plans will typically involve multiple channels of communication like mailings, radio, TV, and newspaper ads.
- Abstract objectives will be avoided in meeting announcements. Specific "attention-grabbing" reasons to attend will be used, such as "Help us figure out how to relieve congestion on [corridor name]" or "How much should it cost to ride the bus? Let us know on [date]."
- Efforts will be made to show how the input of participants can, or did, influence final decisions.
- We will do our best to form decision-making committees that look like and relate to the populations we serve.
- We will seek out and identify community contacts and partner with local community- and faith-based organizations that can represent, and help us disseminate information to, target constituencies.
- Demographic data will be requested during public meetings, surveys, and from community contacts and committee members.

**Public Meetings**
“Public meeting" refers to any meeting open to the public, such as hearings, charrettes, open house and board meetings.

- Public meetings will be conducted at times, locations, and facilities that are convenient and accessible.
- Meeting materials will be available in a variety of predetermined formats to serve diverse audiences.
- An assortment of advertising means may be employed to inform the community of public meetings.
- Assistance to persons with disabilities or limited English proficiency will be provided, as required.

**Small Group Meetings**
A small group meeting is a targeted measure where a meeting is held with a specific group, usually at their request or consent. These are often closed meetings, as they will typically occur on private property at the owner’s request.

- If it is determined that a targeted group has not been afforded adequate opportunities to participate, the group will be contacted to inquire about possible participation methods, including a group meeting with them individually.
- Unless unusual circumstances or safety concerns exist, hold the meeting at a location of the target group’s choosing.
- Share facilitation duties or relinquish them to members of the target group.
- Small group discussion formats may be integrated into larger group public meetings and workshops. When this occurs, the smaller groups will be as diverse as the participants in the room.
Community Surveying

- Opinion surveys will occasionally be used to obtain input from targeted groups or the general public on their transportation needs, the quality or costs of our services, and feedback on our public outreach efforts.
- Surveys may be conducted via telephone, door-to-door canvassing, at community fairs, by placing drop boxes in ideal locations, or with assistance from other local agencies like social services.

10.5 Limited English Proficiency

Limited English Proficient (LEP) persons refers to persons for whom English is not their primary language who have a limited ability to read, write, speak, or understand English. It includes people who reported to the U.S. Census that they speak English less than very well, not well, or not at all.

In an effort to comply with DOT’s LEP policy guidance and Executive Order 13166, this section of our public participation plan outlines the steps we will take to ensure meaningful access to all benefits, services, information, and other important portions of our programs and activities by individuals who are limited-English proficient. Accordingly, a four factor analysis was conducted to determine the specific language services appropriate to provide, and to whom, to inform language assistance planning and determine if our communication with LEP persons is effective.

Four Factor Analysis

This Four Factor Analysis is an individualized assessment that balances the following four factors:

1. The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee;
2. The frequency with which LEP individuals come in contact with the program;
3. The nature and importance of the program, activity, or service provided by the recipient to people’s lives; and
4. The resources available to the recipient and costs.

Factor #1: The number or proportion of LEP persons eligible to be served or likely to be encountered by the program, activity, or service of the recipient.

Moore County Transportation Services reviewed the 2015 US Census estimates from a population of 86,714 with Spanish or Spanish Creole individuals comprising the largest non-English speaking language group. The language spoken most by this group of individuals is Spanish. The Census Bureau estimates that there are 1,917 of those individuals that speak English less than "very well". This information helps Moore County Transportation understand that we are above the Safe Harbor Threshold for the Spanish and Creole population. Therefore it is our responsibility to also provide vital documents such as complaint sheets, policy statement and the Notice to the Public in Spanish. We will also assess through a survey if the LEP individuals are underserved due to language barriers.
**Factor #2: The frequency with which LEP individuals come in contact with the program.**

Although the census shows that Moore County has a LEP population above the Safe Harbor Threshold it is very rare that Moore County Transportation Services has the opportunity to come in contact with these individuals. However, if we are contacted by an LEP individual we keep a log and have the resources available to properly assist. To verify that MCTS is meeting the needs of the non-English speaking population, surveys will be conducted via: public meetings, ridership, contractors, local agencies and the faith community annually by distributing a simple survey card with two questions in English and the language the transit system finds necessary for their LEP group that would be more adequate for this assessment:

- What purpose do you often use our services? (Give a few examples to check mark, employment, medical, etc.)
- How often a week are you using our services?

**Factor #3: The nature and importance of the program, activity, or service provided by the recipient to people’s lives.**

Moore County Transportation feels that public outreach to all groups within the community is important and will continue to reach out to persons with limited English proficiencies. Moore County Transportation provides all citizens including LEP clients non-emergency, subscription, demand response service and deviated fixed route operation to all Moore County residents. These transit services are for general public ridership or those sponsored through agency contracts with the Department of Social Services, Moore County Department of Aging, Monarch and other human service agencies within Moore County. The primary mission of Moore County Transportation Services is to provide safe and efficient transportation. Providing this service allows citizens to stay mobile and keep their independence. Using surveys for your riders will provide you the proper evidence of your transit system’s significance to the community. On the same card as previously mentioned you could ask two more questions:

- Is "your transit system's name" transportation services important to you?
- If so which one? (Give examples to check mark)
- What is your primary language?

**Factor #4: The resources available to the recipient and costs.**

Moore County Transportation Services identified local resources that could be used to provide LEP assistance to customers. Latino/Hispanic staff working within Moore County Government and free language services such as google translator which could be used to provide translation and interpreting services. Google translation is installed on the Moore County Transportation/Moore County website.]

**LANGUAGE ASSISTANCE PLAN**

Moore County Transportation Services analyzed the four factors and determined that the population of LEP persons living in Moore County that speak Spanish warrants the need for special population outreach to assist individuals with Limited English Proficiency with its service region. The Spanish speaking population meets the safe harbor threshold for the need of translation services listed above.

**Language Assistance Measures**

The following general language assistance measures are reasonable and achievable for our organization at this time:

- Translating public notices posted in the local paper, stops, and in vehicles into the languages of all language groups that met the threshold in Factor 1.
- Making a concerted effort to inform LEP persons of available language assistance via staff, broadcast media, relationship-building with organizations, and our website.
- Posting vital bulletin board information and disseminating community surveys in various languages.
• Providing translation and interpretive services when appropriate (upon request or predetermined) at meetings.
• Determining how best to take public involvement to LEP groups directly, including through small group meetings.
• Language line translation services at our call center.
• Utilizing or hiring staff that speak a language other than English and can provide competent language assistance. Note: We will not ask community-based organizations to provide, or serve as, interpreters at our meetings. Relying upon CBOS in that capacity could raise ethics concerns. If a CBO decides (on its own) to translate any materials for its constituents, or bring interpreters it trusts to our meetings, we cannot object. That is their right.
• Using language identification flashcards to determine appropriate services.
• Establishing a process to obtain feedback on our language assistance measures.

Specific Measures by Language Group
• Spanish: MCTS will provide the following:
  o Brochures and flyers, etc. in Spanish since that has been found to be the most dominate 2nd language.

Written Translation and Oral Interpretation
Vital documents will be translated for each eligible LEP language group in our service area that constitutes 5% or 1,000, whichever is less, of the population of persons eligible to be served or likely to be encountered. Translated materials will be placed online and in appropriate public (or private) places accessible to LEP persons. The safe harbor provisions apply to the translation of written documents only, and do not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable. When appropriate, translation of any document will be communicated orally in the appropriate language.

In the event that the 5% trigger is reached for a LEP language group that is fewer than 50 persons, written notice will be provided in the primary language of that group of the right to receive competent oral interpretation of vital written materials, free of cost. The most effective method of notice, which could be an ad in the local newspaper or other publication, a radio commercial, or door hangers, will be determined in consideration of the circumstances on the ground and in coordination with language access resource contacts (LARCs).

Staff Support for Language Assistance
• Moore County Transportation staff will be provided a list of referral resources that can assist LEP persons with written translation and oral interpretation, including the Title VI Officer and any outside consultant contracted to provide language services. This list will be updated as needed to remain current.
• All main offices and vehicles will have on hand a supply of language assistance flashcards and materials translated into the languages of the largest LEP language groups. When encountered by an LEP person, staff (including drivers) should present the individual with a flashcard and let them choose the language. Do not assume you know their preferred language. Drivers are permitted to seek volunteer assistance from other passengers before contacting a referral resource. Document the encounter and report it to the Title VI Coordinator.
• Training: All employees will be instructed on our procedures for providing timely and reasonable assistance to LEP persons. New employee orientation will also explain these procedures to new hires. Staff routinely encountering LEP persons by telephone or in person will receive annual refresher training. All other employees will be reminded of LEP through annual Title VI program acknowledgments (Section 5.0) and basic Title VI trainings (Section 11.0).

Project-Specific LEP Outreach
A project-specific four factor analysis will be conducted for any project being planned or scheduled outreach event limited to a specific geographical area delineated for that activity (i.e., the project study area or outreach area,
Language assistance will be provided in accordance with the measures already outlined, including translating written materials for each LEP language group that is 5% or 1,000, whichever is less, of the project or outreach area population.

Monitoring and Updating the LAP
Monitoring of daily interactions with LEP persons will be continuous, thus assistance techniques may be refined at any time. This LAP will be periodically reviewed to determine if our language assistance measures and staff training are working. Resource availability and feedback from agency staff and the general public will be factors in the evaluation and any proposed updates. Among other practices, this process will include working with LEP community contacts to determine if our employees are responding appropriately to requests made with limited English or in languages other than English, and observing how agency staff responds to requests, including observing drivers or surveying riders. To the best of our ability, we will attempt to never eliminate a successful existing LEP service. Significant LEP program revisions will be approved or adopted by our board or designated official and dated accordingly. LEP data and procedures will be reviewed and updated at least once every three years.

Strategies for Representative Committees
We will seek minority participation and strive for committees that are representative of our constituencies by:

- Openly asking public and small group meeting participants if they would be interested in serving on a committee.
- Seeking referrals from local organizations and key community contacts that serve or represent minorities.
- Exploring different types of committees, such as ad hoc minority- or youth-only Citizen Advisory Committees.
- Outreach efforts and responses (or lack thereof from those asked to serve or refer others) will be documented.

13.0 RECORD-KEEPING AND REPORTS

Records will be kept to document compliance with the requirements of the Title VI Program. Unless otherwise specified, Title VI-related records shall be retained indefinitely. These records will made available for inspection by authorized officials of the NCDOT and/or FTA. As a sub-recipient of FTA funds through NCDOT, we are required to submit a Title VI Program update to NCDOT every three years, the next of which is due in 2020. Reports on Title VI-related activities and progress to address findings identified in civil rights compliance reviews and assessments may also be submitted on an as-requested basis. It will occasionally be necessary to update this program plan and its component parts (e.g., complaints, Public Involvement, and LEP), applicable documents, and responsible officials. Updates will be submitted to NCDOT for review and approval.

In addition to other items throughout this plan, records and reports due at the time of compliance reviews or investigations will include:

**Compliance Reviews**
- Title VI Program Plan
- List of civil rights trainings provided or received
- Summaries from any internal reviews conducted
- Ads and notices for specific meetings
- Findings from reviews by any other external agencies
- Title VI equity analyses and EJ assessments
- Discrimination Complaints Log

**Complaint Investigations**
- Investigative Reports
- Discrimination complaint, as filed

17. Service standards (quantitative measures) developed for each specific fixed route mode that the recipient provides (standards may vary by mode) must be submitted for each of the following indicators:

- Vehicle load for each mode (Can be expressed as the ratio of passengers to the total number of seats on a vehicle. For example, on a 40-seat bus, a vehicle load of 1.3 means all seats are filled and there are approximately 12 standees.)

- Vehicle headway for each mode (Measured in minutes (e.g., every 15 minutes), headway refers to the amount of time between two vehicles traveling in the same direction on a given line or combination of lines. A shorter headway corresponds to more frequent service. Service frequency is measured in vehicles per hour (e.g., 4 buses per hour).)

- On time performance for each mode (Expressed as a percentage, this is a measure of runs completed as scheduled. The recipient must define what is considered to be "on time." Performance can be measured against route origins and destinations only, or against origins and destinations as well as specified time points along a route.)

- Service availability for each mode (Refers to a general measure of the distribution of routes within a transit provider's service area, such as setting the maximum distance between bus stops or train stations, or requiring that a percentage of all residents in the service area be within a one-quarter mile walk of bus service.)

18. Service policies (system-wide policies) adopted to ensure that service design and operation practices do not result in discrimination on the basis of race, color or national origin, must be submitted for each of the following:

- Transit amenities for each mode (e.g., benches, shelters/canopies, printed materials, escalators/elevators, and waste receptacles. NOTE: Attach this information only if you have decision-making authority over siting transit amenities or set policies to determine the siting of amenities.)

- Vehicle assignment for each mode (Refers to the process by which transit vehicles are placed into service throughout a system. Policies for vehicle assignment may be based on the type or age of the vehicle, where age would be a proxy for condition, or on the type of service offered.)
