Disposal with soap works. See a compost pile.

Do not use the sewer as a means to dispose of food scraps. Dried food scraps in water contribute to fatbergs. Put it in the garbage.

Place a paper towel or paper plate under or near your refrigerator. Keep the position of your refrigerator and other appliances clear.

Properly dispose of your grease, fat, and oil in the garbage.

The easiest way to help is by recycling grease, oil, and grease oil. See the sewer in the garage. Properly dispose of your grease, fat, and oil in the garage.
